Golden View
Renovation
builds custom

homes, room additions and accessory dwelling units (ADUs); remodels kitchens and bathrooms; and provides other general construction services for residential clients in the East Bay and cities between San Francisco and Morgan Hill. As a design/build contractor, the company has the capabilities to handle every phase of its customers' projects, from the initial planning to the finishing touches.

Owner Guy Benshoshan says Golden View Renovation was founded to provide a level of service that's rarely seen in the construction industry. "A lot of contractors outsource designs and don't oversee planning, which can leave their customers frustrated with delays, extra payments and poor workmanship. With our in-house design department and emphasis on thorough pre-construction checks, we maintain full control of our clients' projects from the very beginning."

Golden View Renovation prioritizes quality control in every aspect of its operations, which Mr. Benshoshan says is crucial for ensuring positive results. "Each project is supervised by all three owners of the company, which means our clients get white-glove service from start to finish. Whether we're coordinating with tradespeople or addressing concerns, we make sure the quality of the finished product matches what was promised."

COMPANY PHILOSOPHY

"We believe preparation is the key to success, so we're always looking for ways to refine our processes and raise the level of craftsmanship we provide. By focusing on human-centered designs and consistent execution, we're able to deliver results that stand the test of time and leave our clients completely satisfied."

Why Choose a Diamond Certified Company?

The Diamond Certified Ratings

Quality

Based on true customer satisfaction surveys, to qualify, the rated company must score Highest in Quality and Helpful Expertise® and pass all credential verifications, including license, liability insurance, workers' compensation, business practices and a financial check for contractors.

Accuracy

We pull a random sample (typically 400 customers) from the company's customer list. We ONLY perform confidential telephone surveys to verify that each customer has actually purchased from the company and feels comfortable, when justified, to criticize its performance.

Customer Satisfaction

Our research is statistically reliable because a large, random sample of customers is pulled from each company's customer base, so there's not a self-selection bias. Examples of survey questions: "On a scale of 1 to 10, how satisfied are you with the quality you received?"; "Would you use the company again?"

Helpful Expertise®

We conduct ongoing surveys to ensure the company is maintaining its status as a helpful local expert. Examples of survey questions: "What did you like best about the company?"; "If you needed Helpful Expertise®, did the company provide it?"

Guarantee

The Diamond Certified Performance Guarantee provides you with mediation and a money-back guarantee up to \$1,000. Details at www.dccert.org/guarantee.

Diamond Certified vs Review Sites

There are key differences between our research and review sites' reviews.

 Diamond Certified Resource	 Most Review Sites
Real Customers	Fake Reviews / Multiple Identities
Random Sample All Customers	Cherry-Picking
Statistically Reliable / Rigorous	Inaccurate Star Scores
Guaranteed / Local Help	No Guarantees / No Help
